

## **What Does Light Talk About?**

When you recognize her beauty,  
the eye applauds, the heart stands in an ovation,

and the tongue when she is near  
is on its best behavior,

it speaks more like light.

What does light talk about?  
I asked a plant that once,

It said, "I am not sure,  
but it makes me  
grow."

*- St. Thomas Aquinas*
